Our orbs or moon balls can be placed directly on a table or on top of a mirror or can even be placed on top of martini glasses for extra height. From a subtle white glow to stronger colours they can reflect your colour scheme and are ideal for those needing a lower type of table centrepiece.

## LED ICE BUCKETS

Our large LED illuminated ice buckets can hold 4 or more bottles of wine or lots of bottles of beer and are ideal for parties and corporate events. Just fill with ice and use as a wine, champagne or beer cooler.

They come with a remote control so that you can set each one to a different colour or have them all the same to fit in with your colour scheme. They can even be dimmed or set to fade through a range of colours.

## THE WAVE

Our new wave centrepiece is a unique design and offers a very different look. Each wave centrepiece is fitted with its very own LED light and can be set to your choice of colour so if you are looking for a low centrepiece to match your colour theme with a modern twist then this may be the centrepiece for you.

Suitable for parties and corporate events, venues where you need a lower style of table centrepiece, modern and wave, beach or seaside themed events.
